RATES RAISED FOR POWER CONSUMERS

The change in the rates of the Pacific Power Co. announced last week will cause a raise in the charges of all consumers who consume over 30 kilowatts per month. The users of large amounts of power have found on an investigation of the new schedule that their charges under it will be materially increased.
The management of the Pacific Power & Light Co. states that there will be a decrease in the rate of light consumers, who use less than the 30 kilowatts per month. They assert that 80 per cent of their customers are in this class and that their gross returns for each month will be decreased from 10 to 15 per cent.
The statement made in last week's report relative to the rates having been approved by the Oregon Railroad Commission was erroneous, for under the present status of the law the Railroad Commission has no jurisdiction over such matters.
The increase in rates in the case of the large consumer is creating a great deal of dissatisfaction and the Hydro Electric Co., the management of which asserts that it will be enabled to give the patron power at a minimum cost, will undoubtedly secure many of the customers of the Pacific company.

LOCAL OFFICERS ARREST FORGER

Because he failed to keep faith with his bondsman, Courtney R. Rowland, one of the five youths arrested for forging names to the petition of ex-Councilman Ellis for a competitive paving measure, was arrested here Saturday night by Marshal Lewis and Night Watchman Hickox and turned over to his bondsman, C. B. Mitchell, who escorted him to Portland Sunday morning where he was delivered to the authorities.
Rowland was arrested several months ago for looting the Ellis petition with names. He was indicted by the grand jury and held under a \$1000 bond. The young man found difficulty in getting surety until Mitchell was persuaded to put up the amount on the terms that he would report at his office every day. However, the youth fled, with the result that he was caught here and will now spend a while behind the bars.
